MEDICAL ASTROLOGY: CORE PRINCIPLES

Rounding Rule

- **Direct:** use degree as written, minutes don't matter
- **Retrograde (℞):** round up one degree regardless of minutes
- 0° always expresses as the sign it occupies in its rawest form

The Five Steps

1. **Degree:** which sign is this degree associated with?
2. **House:** which sign rules this house?
3. **Placement:** which sign is the planet in?
4. **Aspect:** what type of energy?
5. **Archetype Addition:** blend all layers

Key Principles

- Planets = functions. Signs = systems. Houses = location. Degree = sub-signature
- Start with hard aspects, they are the primary diagnostic focus
- Always check the opposition axis for the compensation mechanism
- Trine patterns normalize the imbalance, conditions often go undiagnosed longest
- Correlate, never diagnose
